## EXPERIENCE

### Department of Defense, Clearfield, UT — *Full Stack Web Developer*

January 2019 - PRESENT

Build and maintain Mission Critical Applications for Personnel and Aircraft Management using the latest technologies available. Responsibilities also include Security and Operations of our Application.

### Helio, Salt Lake City, UT — *Mentor*

January 2019 - October 2019

Mentor for Bootcamp classes. Responsibilities included teaching, explaining and assisting in all things related to Full Stack Web Development. Advised students on Final Project's structure and capabilities.

## EDUCATION

### Weber State University, Ogden, UT — *Computer Science*

November 2023 - Present

Currently enrolled in the Computer Science program and maintaining a GPA of 4.0.

### Helio, Salt Lake City, UT — *Full Stack Web Development*

October 2018 - January 2019

Completed the Full Stack Web Development Bootcamp program at Helio and received all available certifications. Graduated the program at the top of my class.

## PROJECTS

### Torque Application — *A Full Stack Application to be used for training purposes.*

In helping to train new hires in our Air Force Squadron, I built a full stack application to be used as an example using all expected technologies and frameworks.
